Charging Instructions

Using the Blink Charging Mobile App

1

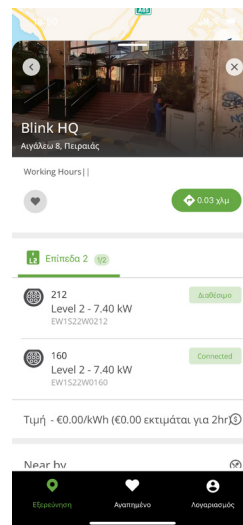

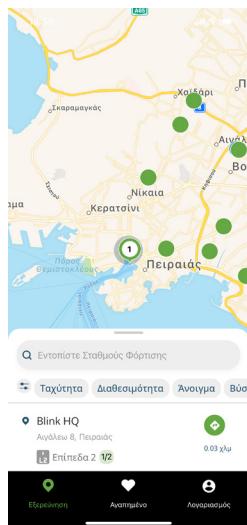

To start charging session, connect the cable to the socket and the car and wait until the LED lights turns yellow.

2

Select the charging station from the map.

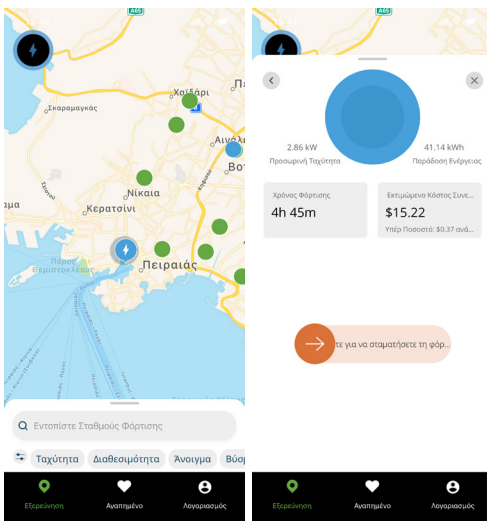

3

Select the socket. The LED lights turn blue, and the charging session begins.

4

To complete charging session, tap the blue lightning and swipe for Stop Charging

Tip

During charging you can select the button with the blue lightning to see the charging time and kWh that your vehicle has absorbed.

Charging Instructions

Using Blink Card

- 1 Plug the cable into the socket and the car and wait until the LED lights turn yellow.
- 2 Tap the Blink Card on the card reader, located onto the charger's socket.
- 3 In a few seconds, the yellow LED lights turn blue and the charging session begins!
- 4 When the Led lights turn yellow, you are capable of unplugging the cable.
